Subject: Herkimer P/L Price Suggestion

1

Dear Bill,

As per our visit with Mike Button at Herkimer Wholesale, in which Mike voiced converting Prime/Private Stock customers over to Marker, attached is the price point I feel could convert their customers. Currently Marker sells for 13.91 and Prime/Private stock sell for 12.50. By redirecting the monies available we can get to a price of 12.47, and sell a whole lot more....

Sincerely,

Sharon
